

ICAMD 2018

2018 International Conference on

Automation, Mechanical and Design Engineering

International Conference on Automation, Mechanical and Design Engineering (ICAMD 2018) will take place at **Kuala Lumpur, Malaysia from March 17-19, 2018**. ICAMD aims at presenting current research being carried out. We take this opportunity of urging you to consider sharing your expertise on different aspects of Automation, Mechanical and Design Engineering with your peers from around the world. We warmly welcome and encourage you to join us, share your research efforts & findings with your peers, appraise yourself with their experiences, publish your research in SCOPUS-indexed journal and in the process, contribute towards advancing the state-of-the-art in the field of Automation, Mechanical and Design Engineering.

Journal Publication

Accepted and registered papers will be published by *International Journal of Mechanical Engineering and Robotics Research* (IJMERR) (ISSN: 2278-0149), Indexed by **Scopus** (since 2016), Index Corpernicus, ProQuest, UDL, Google Scholar, Open J-Gate, etc.

Conference Chairs

Prof. Ramesh Singh, University of Malaya, Malaysia

Prof. Ramesh K. Agarwal, Washington University in St. Louis, USA

Program Chairs

Prof. Norhamidi Muhamad, Universiti Kebangsaan Malaysia, Malaysia

Prof. Md Mustafizur Rahman, Universiti Malaysia Pahang, Malaysia

Prof. Seong Soo Choi, Research Center for Nanobio Science, SunMoon University and Sunkyunkwan University, South Korea

Important Dates

Abstract submission: **Nov. 5, 2017** Notification date: **Nov. 25, 2017**

Registration deadline: Dec. 15, 2017 Camera ready: Feb. 15, 2018

Submission Methods

Submission System:

<http://www.easychair.org/conferences/?conf=icamd2018>

Submitting to E-mail:

Conf_icamd@yeah.net

Venue

Hotel Royal Kuala Lumpur

Address: Jalan Walter Grenier, 55100
Kuala Lumpur, Malaysia

Raise your question to:

Conf_icamd@yeah.net

TOPICS

The proposed conference solicits original, unpublished and novel papers for research publication and presentation in research track, and industry/application papers in application track, in the 2018 ICAMD. Articles describing novel ideas and applications in all areas of Automation, Mechanical and Design Engineering, including but not limited to the following:

- Automated Highway Systems
- Automated Video Surveillance
- Automated Waste Management
- Human Robot Interaction
- Robot Mechanism and Control
- Robot Vision
- Exoskeletal Robot
- Intelligent Robot and Service Robot
- Robotic Applications
- Mechanics
- Biomechanics
- Structural Analysis
- Design and Drafting
- Acoustical Engineering
- Mechanical Engineering
- Aerospace Engineering
- Thermal Engineering
- Mechanical Engineering Testing
- Industrial Engineering
- Mechanical transmission control
- Computational Fluid Dynamics
- Manufacturing Engineering
- Intelligent Design
- Electric drive control
- Mechatronics and Robotics
- Automation and Robotics
- Design and Manufacturing
- Process Control and Automation
- Micro-Machining
- Design for Manufacturing and Assembly
- MEMS/ NEMS
- Advanced Metal Forming, Welding & Casting techniques
- Turbo Machines and Fluid Power Engineering
- Structural Dynamics
- Electrical insulation technology
- Discrete Control
- Computer Control
- Automated Mining
- Home Automation
- Industrial Automation
